

## FACTS & FIGURES

Founded in 1950, we are one of the largest European law firms specializing in intellectual property law, and one of the very few led by an all-female management team. We have the practical and legal experience and professional reputation and insight to provide you with comprehensive European IP legal services with a global perspective.

### HOW WE WORK

For each matter we choose the attorney(s) with the best fit for the client's needs and value proposition, assessing subject matter expertise and legal specialization, efficiency, and previous success experience in similar cases. This approach generally translates to successful outcomes at significant time and cost savings, all to the client's benefit. We handle everything from filing to prosecution to litigation and opinions, and each of these activities strategically complements the other, leading to increased quality at each stage.

### OUR STRENGTH

As we are aware of and sensitive to our foreign associates' and clients' budget requirements, we put a premium on efficient and timely communication to address costs, timelines, risk/reward priorities, and any adjustments that need attention. Our proprietary, in-house developed IT case management and docketing system helps us with efficient, cost-effective and focused oversight.
